About E Steel

Company Profile

Established as a sole-proprietor company in 2004, E Steel Sdn. Bhd. specializes in a wide range of high-performance steel products. We focus on special steel and the majority of our products are imported and catered to the Oil & Gas, Automotive, Medical, Marine, Machinery, and Semiconductor industries.

Today, E Steel has become one of the fastest-growing steel stockiest in Malaysia. The business expanded to the Middle East and ASEAN countries when the company launched its eCommerce steel platform to deal with challenges like payments, high mix low volume, customization, matching specifications, and quality assurance.

Our Mission & Vision

Capacity

16 Bandsaw Cutting Machines up and running
Over 2,000 tons of Alloy Steels in Stock

Motto

Right Metal, Right Specification to Right Applications

Mission

To ensure top quality, matching specifications, shortest lead time, assurance of delivery and convenience for our customer purchase

Vision

To become Asia's Top Industrial 4.0 Metal Central Hub with the only supply chain management expertise that customers need.
