

HITACHI RX2-S SERIES

Hitachi Continuous Ink Jet Printer for Industrial Marking

HITACHI
Inspire the Next

Hitachi RX2-S Model

More Reliability

- Full protection against dust and water jets in harsh environment.
- New viscosity control and current ink density control help to achieve stable drop formation and high quality printing.
- Improved ink circulation system provides more stable ink return.
- More wide operating temperature 0-45°C (JP-K67 ink).

Integration of high-tech and state-of-the-art design

- Easy and quick operation by large liquid crystal display and touch panel (10.4").
- Nozzle and gutter are automatically cleaned before stopping.

- Small footprint and light.
- Solvent evaporation reduced by the ink return system which confines the mixing of air and ink.
- Basic printing functions are available.
- Various coding functions are available.
- User-friendly coding functions are available.
- Help functions are available.

Easy maintenance

- Easy replacement of ink filter by development ink system.
- Strong printhead.
