

# **KEEP**

## Growing With You

**KEEP** are B2B expertise with more than a 10 years of experiences about current industry technology & trends. We take pride in being one-stop Design, IT, Marketing & Advertising service provider for all industries.

With profound knowledge of latest technology trends, we are backed by the highly skilled team of Design & IT experts who dedicatedly offer triumphant result oriented solutions to our clients across the South East Asia. We stand apart in accomplishing diversified projects with the un-diverted focus towards cost effective results in fast turnaround time.

Our quality of work is defined by 100% client satisfaction. **KEEP** is after all on a mission to bring business closer to its customers by making it stand out of the competition.

## Our Vision

To become the most appreciated Design, IT, Marketing & Advertising solution company in Asia. Providing world class excellence result oriented services and products with spot light on emerging technologies supported by industry expertise who are dedicated to work for professional escalation and job satisfaction.

## Our Mission

To generate and provide supreme quality services with prime focus on creativity & futuristic technologies. We aim to hold client's interest in providing cost effective services in the most translucent manner. We employ people who possess zeal to innovate and take pride in the quality they deliver for mutual growth supported by team work.

## What we do?

We have delivered exceptional results with our innovative solutions via our products and services. We get associated with all sectors and all scale companies. In our low risk delivery model, we give high priority to time and cost predictability assuring 100% client satisfaction to our clients across Asia throughout the entire development cycle.

## How we do?

At **KEEP** we soak up optimum approaches to get high end performance in delivering creative & high quality technology solutions. We leave behind redundant complexity that affects project timing and budget.

We follow best industry practices which include Agile Methodology and Rational Unified Processes (RUP). Our methodology results in better customer service with no compromise on cost, quality, and customer's strategic goals.

## Our Strength lies in

- Competitive pricing & support
- Creative Thinking
- State of the art IT infrastructure
- Domain expertise
- 24/7 support across all time zones
- Knowledge about prevailing industry trends
- Fast Delivery
- Seamless communication
