Corrugated carton is generally made from the following components:-

i) Type - Kraft, Liner, Test Liner, Medium

ii) Flute - A Flute, B Flute, AB Flute

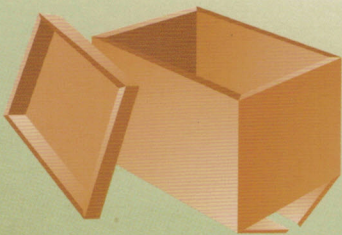

This illustrations demonstrate three types of combined board:-

i) Single Face - One medium is glued to one flat sheet of linerboard.

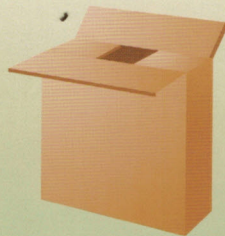

ii) Single Wall - The medium is between two sheets of linerboard. Also known as double face

iii) Double Wall - Three sheets of linerboard with two mediums in between.
