# Labelling Machine

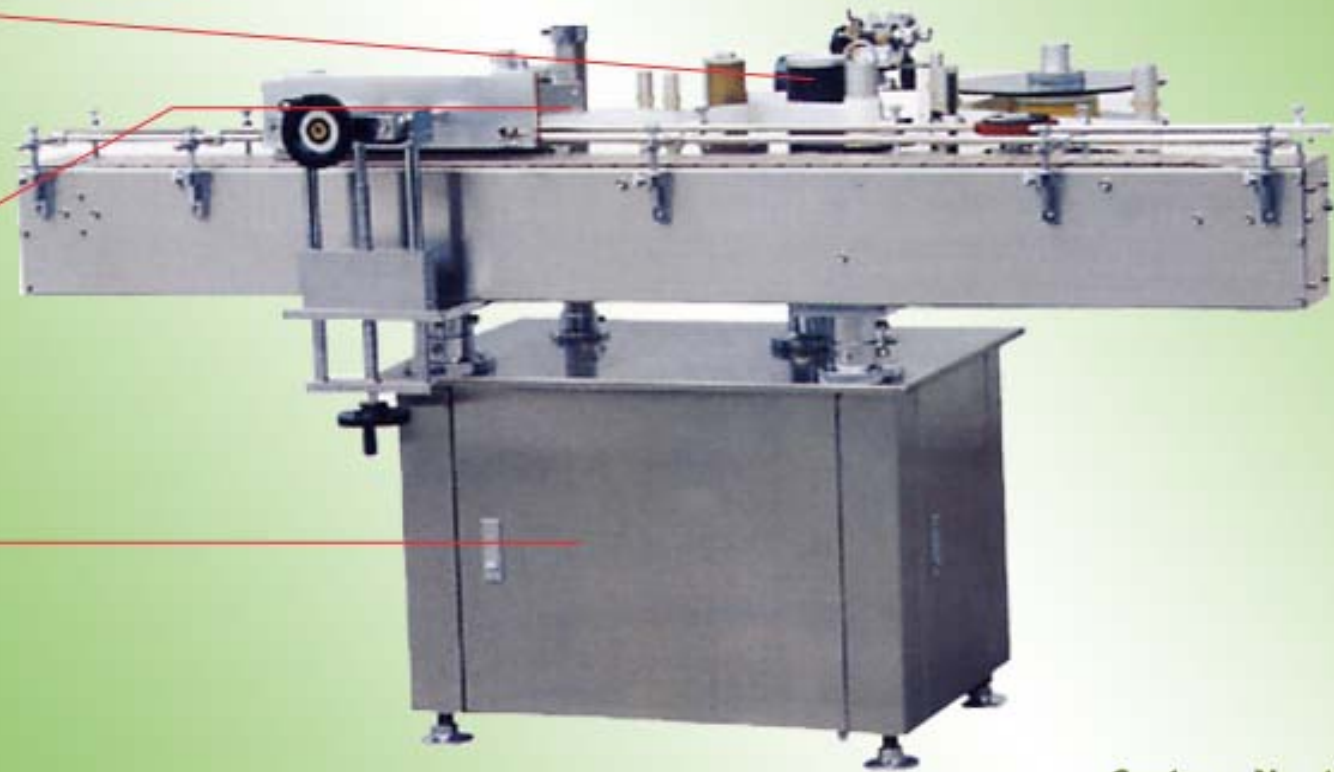

Batch or Date Code Printer

Labelling Section

Control Panel

Catalogue No. 171/ 04

**Specifications\*:**

Labelling range diameter	: 20-100
Capacity (bottles/ min)	: 60-120
Label reel core diameter	: 76
Label width	: 20-100
New label roll diameter	: 300
Label length	: 30-200
Power supply	: 220V/ 1Ph/ 50Hz or 415V/ 3Ph/ 50Hz
Power	: 250W
Machine dimensions	: 1820 x 1100 x 1500
Machine gross weight	: 200 kg

\* All dimensions are measured in mm.

**Applications:**

This machine is suitable for the labelling of round or square bottles made up rigid glass, plastic or metal. Custom made attachments can be provided for other shape containers as an option. The labeler is particularly suitable for use in the food, pharmaceutical and fine chemical industries where rust-free conveyor structure and SUS cabinet is required.

**Features:**

The machine automatically conveys bottles into labelling dispenser. A special labelling head separate the label and apply them onto the bottles. The standard machine comes with a batch/ date code printer.

The labelling unit is driven with a special heavy duty stepping motor. Control components and circuits are the latest state-of-the-art with opto-electronic and power surge protection devices. The labelling operation is precise, stable and very reliable even when running at high speeds.
