

# 2019/20 FOREST AND GARDEN PRODUCTS

**Husqvarna**<sup>®</sup>  
READY WHEN YOU ARE

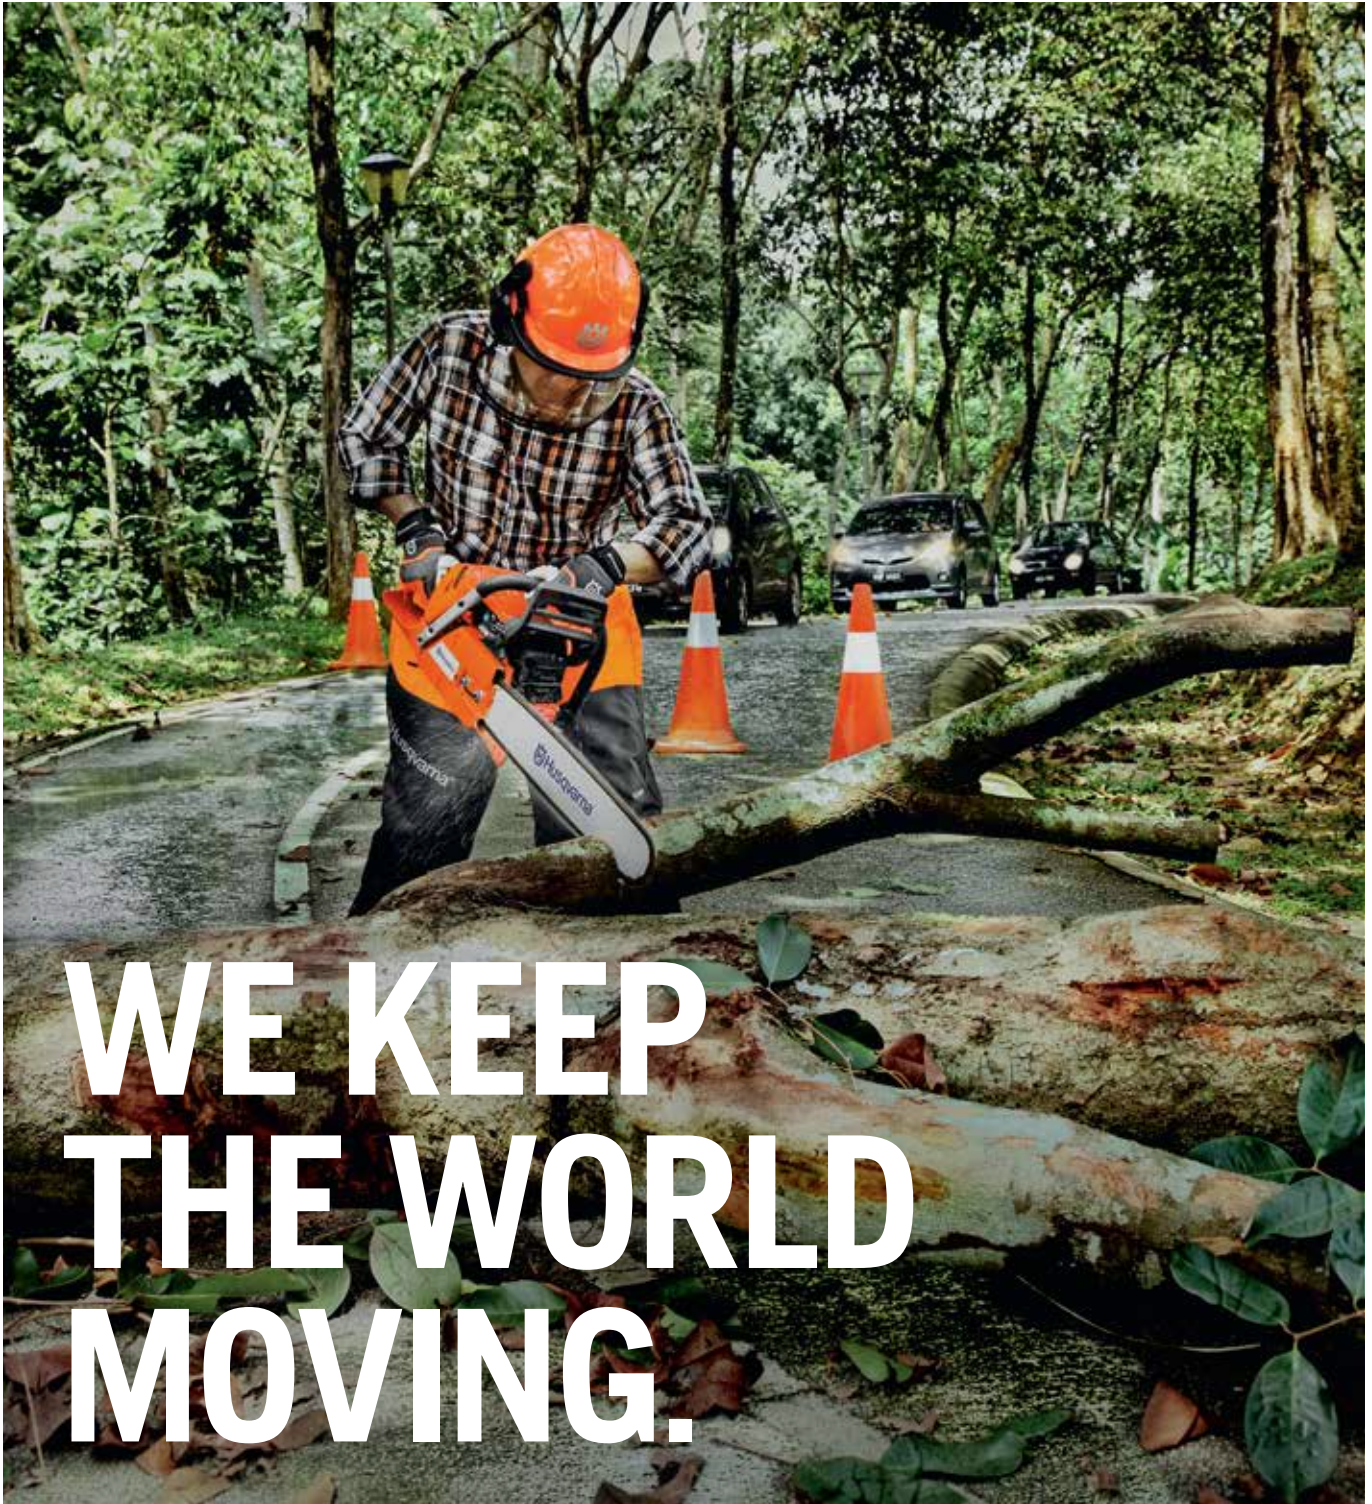

# READY WHEN YOU ARE.

Husqvarna tools for forests, parks and gardens are born out of a unique relationship between man and machine. Or, if you want, between our company and the people who use our products to shape nature, every day.

If your work is serious, you need serious equipment. That is where you can always rely on Husqvarna. Whatever you need to do, we are there to help you do it as quickly, easily and safely as possible.

# WE KEEP THE WORLD MOVING.

We know people rely on us. That is why Husqvarna products are made to set the standard in power and performance, while at the same time reducing vibrations by its ergonomic design. From a light trim at the park to a heavy clear-up after a nasty storm, we make dangerous jobs safer. We do all these because the world counts on you, and together we keep the world moving.

RANGE**

**PAGE 24**

**WEAPONS PAVED THE WAY  
FOR QUALITY CRAFTSMANSHIP.**

Our attention to detail and consistently high levels of quality control were key factors in the long and successful period of manufacturing both military weapons and private firearms.

**CELEBRATING THE FIRST 325 YEARS.**

Constantly setting new standards in technology and usability has made us the global leader in outdoor power products, as well as one of the world leaders in the construction and stone industries.

**LEADING CHAINSAW DEVELOPMENT  
SINCE 1959.**

In November 1959 Husqvarna's first chainsaw was presented, featuring a noise level that was half of the competition's.

**TOP RANK FOR MOTORCYCLES  
IN PARIS-DAKAR.**

In 1982, the French army's interest in our military motorcycles lead to Husqvarna's victory in the 250 cc class of the legendary Paris-Dakar Rally.

# PERFORMANCE, DESIGN AND HERITAGE.

At Husqvarna, we have been going beyond the expected and created groundbreaking engineering ever since we began back in 1689. Over the years, our passion has led to innovative solutions in very different areas — including weapons, sewing machines and motorcycles.

#### SETTING NEW STANDARDS FOR EFFICIENT MOWING.

In 1995 Husqvarna launched the Solar Mower, the world's first fully robotic lawn mower, running on nothing but solar power.

#### WE NEVER STOP INNOVATING.

Our ongoing journey into new innovations includes the anti-vibration system LowVib®, the engine technology X-Torq®, the chain brake TrioBrake™ and today's sophisticated battery technique.

#### ALWAYS WITH SAFETY IN FOCUS.

The risk of being injured while doing chainsaw work can be reduced by having proper training, wearing personal safety equipment and using a modern Husqvarna chainsaw.

# 🌲 FORESTRY

## WE KEEP THE WORLD PRODUCTIVE.

No matter if you are taking down the toughest trees or need to do your limbing as efficiently as possible, we are there to improve your work. Husqvarna chainsaws are world-renowned for their power and performance — along with their ergonomic design and anti-vibration features. That's how we keep the world productive.

SEE OUR FULL RANGE ON THE LAST PAGES

### EFFICIENCY AT ALL TIMES.

User-centric design makes chainsaw work easier on your body, and you can stay alert and efficient longer. Our saws are packed with solutions for making your job more convenient — and productive.

### RELIABLE CONSTRUCTION.

For us, efficient chainsaw work is not just about power. A durable construction along with good safety is equally important when we design our saws. That keeps you and the machine in good condition.

### LESS FILTER CLEANING.

Air Injection™ is a centrifugal air cleaning system for reduced wear and longer operating time between filter cleanings. You will be able to work longer shifts without cleaning the air filter.

## CHAINSAWS

Forged three-piece crankshaft means maximum durability for the toughest applications

Effective inertia-activated chain brake

Sturdily built magnesium crankcase withstands high rpms and tough professional use, ensuring a long service life

SmartStart® — the engine and starter have been designed so the machine starts quickly and with minimum effort.

X-Torq engine technology delivers increased power and acceleration. It also reduces fuel consumption and exhaust emissions.

### YOU DON'T NEED TO BE A CHAINSAW PROFESSIONAL TO WORK EFFICIENTLY AND SAFELY.

We want you to feel comfortable when working with our chainsaws. That your work is running smoothly, i.e. both safely and effectively. Whether you fell trees regularly or maybe less often, you still use your chainsaw. Therefore, we are not just hung up on engine power and acceleration speeds when we develop our saws. We focus just as much on the functions that make the saws easy to use. This is to ensure you get a tool that does not restrict your work, but instead lets you deal with the task at hand in all conceivable situations.

## POLESAWS

### WELL-BALANCED MACHINES FOR DIFFICULT TASKS.

Pruning dense trees can force unnatural working positions that can be harmful to your body. Our pole saws are designed to help you work with ease and give you a high-end result in every situation. The saws are light, well balanced and have rear-mounted engines that provide rapid acceleration.

Telescopic tube for long for flexible reach

With the bar and chain on the left side of the cutter head, the operator has an unobstructed view of the cut.

The rear-impact guard protects the engine from wear and damage

## PROTECTIVE EQUIPMENT

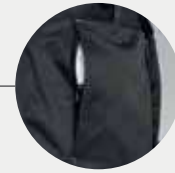

Two side pockets and one chest pocket, easy to reach

### FOREST JACKET, CLASSIC

A clean and modern design with quality in the details, such as the big reflective logo prints. Buttons at the end of the arms provides a tight fit, and the upper part is in high viz orange for visibility. Chest pocket with zipper and two side pockets. Size S-XXL.

Pockets with zipper at the front

### PROTECTIVE TROUSERS, CLASSIC

Trousers with chainsaw protection. Elastic waist, front pockets with zippers, one back pocket and ventilation zipper at back of legs. Ruler pocket on the leg that has to be split open before use. Size 44-64.

### PROTECTIVE GLASSES

Scratch resistant glasses with frames that can be extended and lenses that can be angled. With UV protection, give improved vision in sunny conditions.

### PROTECTIVE GLASSES X

Scratch resistant glasses with static frames. With UV protection, give improved vision in sunny conditions.

### PROTECTIVE GOGGLES

Developed for people who wear eyeglasses, featuring anti-fog coated lenses and a soft inside for greater comfort. Durable against impact, dust and airborne particles as well as chemical splash.

### FOREST HELMET

Helmet completely equipped for full-time or occasionally forestry work. Effective hearing protection with optimal ergonomics. Large metal mesh visor that provides good protection and good visibility. All parts are tested to guarantee product fulfills safety requirements. Certified according to EN 397, EN 352-3, EN 1731.

### FOREST HELMET, CLASSIC

Helmet completely equipped for lighter forestry or garden work. With a traditional six-point plastic harness and one-hand adjustable slip ratchet. The harness depth is also adjustable in three steps for individual fit. The hearing protectors are developed for optimal ergonomics. Metal mesh visor that provides good protection and good visibility. Certified according to EN 397, EN 352-3, EN 1731.

### GLOVES, FUNCTIONAL WITH SAW PROTECTION

Comfortable with a crust goat leather double palm with foam laminated spandex on the back and with nylon neoprene knuckles. Sizes 7, 8, 9, 10, 12.

### GLOVE, CLASSIC

A one size durable gloves. Crust goat leather palm with spandex fabric on the back. Rubberised cuffs with cotton binding for a perfect fit. One size.

### PROTECTIVE BOOTS, FUNCTIONAL 24

Protective boots that will keep feet dry, safe and ready for work day after day. Features include steel toecap, saw protection, ankle protection, heel ridges and non-slip and stud-ready sole. These boots are developed and tested in close co-operation with professional users. Sizes 37-47.

### PROTECTIVE LEATHER BOOTS, CLASSIC 20

Robust, yet lightweight and comfortable boots made of leather, microfiber reinforcements and polyester mesh lining. Saw protection 20 m/s. Protection overlap for increased life span. Sizes 39-47.

## A SHARP CHAIN IS AS IMPORTANT AS A POWERFUL ENGINE.

For your chainsaw to operate effectively, safely and with precision it is vital to have a sharp chain. Husqvarna has developed a unique combination gauge that includes a file gauge and a depth gauge setter in the same tool. Used together with a round file and a flat file, it ensures the correct filing angle.

### FILE THE CUTTING TEETH.

File using light and even pressure, with gentle pushing strokes, parallel to the gauge.

### FILE THE DEPTH GAUGE.

If you file the depth gauge without the tool, you risk filing them down too far.

## DESIGNED TO MEET TOUGH CHALLENGES.

### HUSQVARNA TWO-STROKE OIL, HP

Developed with carefully selected components to work well with low quality petrol. Fulfills the requirements of JASO FB/ISO EGB and Rotax 253 snowmobile test.

1l or 4l dosage bottle.

## KEEP YOUR TEETH SHARP.

### HUSQVARNA INTENSIVE CUT ROUND FILES

Designed for optimal cutting performance and longer lifetime. 4.0, 4.5, 4.8, 5.2 or 5.5 mm.

### FILE KITS

Complete filing kit with a file handle, combination gauge or a file gauge and depth gauge, two round files and one flat file. .325", .325" Pixel, 3/8", 3/8" Mini H36, 3/8" Mini H37, .404" or 1/4" H00.

## REFUEL QUICKLY.

### HUSQVARNA COMBI CAN, 5L

Enables you to refuel quickly without splash effects and any waste. The two containers are designed to achieve an optimized fuel and chain oil ratio. Integrated tool box for frequently needed spare parts.

# SHARP, FAST-CUTTING CHAINS.

X-Cut™ is the first ever saw chain to be developed, designed and manufactured by Husqvarna – and it has all been done in the city of Huskvarna, Sweden, where our chainsaws are developed and tested. Husqvarna X-Cut™ is designed to maximize your output, allowing you to work longer without interruptions. You will feel the difference, and you will produce more in the long run.

**MORE RUN TIME AND LESS MAINTENANCE**

Cutters, materials and manufacturing processes are refined to the extreme, giving the X-Cut™ chain outstanding sharpness out of the box, and even more importantly — sharpness that lasts considerably longer before filing is needed.

**LESS ADJUSTMENTS AND LESS RISK OF DAMAGE**

The X-Cut™ chain is pre-stretched at the factory so you can work for longer before re-tensioning is needed. No unnecessary chain tension required. The risk of damaging the cutting system with a slack chain is also decreased.

**LESS COST AND LESS SERVICE**

A carefully balanced combination of construction, materials and processes mean excellent, dynamic durability. Wear on the cutting system is reduced — and so is the need for service.

**BETTER RESULTS, EASIER WORK**

X-Cut™ is made for making faster cuts, and it's ready to be used straight out of the box. This improves your efficiency — and your results. The smooth cutting reduces the feed force needed, making the work easier on your body.

## WE KEEP THE WORLD BEAUTIFUL.

The world relies on us — and you. That's why we trim our products to perfection. Husqvarna brushcutters are made to perform heavy duty tasks with superior durability as well as ergonomics. The equipment is also easy to transport, so you can go wherever the job takes you. Together we will keep the world beautiful.

SEE OUR FULL  
RANGE ON THE  
LAST PAGES

### RAW POWER.

The X-Torq technology reduces harmful exhaust emissions by up to 75 % and increases fuel efficiency by up to 20 %\*. This makes work more comfortable and economic.

### LIGHT AND POWERFUL.

Lightweight yet sturdy design and powerful, efficient engines give our machines a high power-to-weight-ratio.

### SMOOTHER STARTING.

The engine and starter have been designed so the machine starts quickly with minimum effort, getting you started quickly.

### LONG SERVICE INTERVALS.

The extensive filter area on the large blowers means reduced wear on the blower and that you will have long operating time between filter cleanings.

## BRUSHCUTTERS

The well-balanced design means easy and convenient work

Commercial grade air filter gives long operating time and trouble free use

### TOUGHER CLEARING WITH EASE.

Powerful and impressively lightweight, extremely durable yet easy and comfortable to use. There you have our brushcutters in a nutshell. All machines are designed for long, demanding shifts of clearing high and thick grass, heavy brushwood — and even smaller trees.

## HEDGE TRIMMERS

Leaf catcher

Long cutting blade

The powerful and easy to start engine enables great productivity

### TRIM WITH FIRST CLASS RESULTS.

We offer versatile and robust hedge trimmers with powerful engines. The X-Torq engine delivers maximum power while reducing fuel consumption, enabling you to work with top performance during longer shifts.

## BLOWERS

Quick access air filter

Wide shoulder straps

### VERSATILE AND EFFICIENT.

Husqvarna's backpack blowers are powerful machines that offer the user total control. They are ideal for tackling large areas and long periods of heavy work. Our handheld blowers combine high power with great balance, making them perfect for a variety of lighter as well as more demanding tasks.

# OUR ANSWERS TO YOUR LAWN MOWING NEEDS.

A green and flourishing lawn is only the end result. On the way there, Husqvarna mowers offer comfortable design, enjoyable driving and lots of helpful functions.

## WALK BEHIND LAWN MOWERS

### TRADITIONAL LAWN MOWING JUST GOT EASIER.

We offer a range of machines that will fit many different types of lawns and users. If you want the versatility of different cutting methods, we recommend the collector models which also give you both mulching and rear-eject options when mowing your lawn.

Handle height adjustment for improved user comfort

Easy to handle collector for convenient removal, emptying and replacement

#### ROBUST DESIGN.

Heavy Duty Alloy cutting deck, heavy duty steel cutting height segment, U shaped lower handle support and dual ball bearing wheels secured by locking nuts ensures durability in even the toughest conditions.

#### SUPERIOR MANOEUVRABILITY.

The articulated steering gives first-class manoeuvrability and facilitates driving around obstacles such as trees, bushes and flower beds.

#### HEALTHY LAWNS.

BioClip (also called mulching) can help to release nutrients like nitrogen into the soil. This is beneficial for growth and overall lawn health, and prevents weed growth.

#### STREAMLINE CUTTING.

Rear or side ejection — these cutting systems have high capacity and are more suited for taller and coarser grass types that are seldom cut.

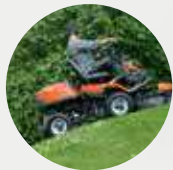

## RIDERS

The cutting deck is easily tilted up into service position, which makes it easy to clean and service.

All-wheel-drive automatically adjusts the traction on all wheels and ensures traction on uneven, wet and slippery areas and slopes.

### SUPERB IN TIGHT AND HARD-TO-REACH SPACES.

Enjoy the ride while easily getting around every obstacle with a Husqvarna Rider. The articulated steering gives it excellent manoeuvrability and a small turning radius. The front-mounted deck can cut hard-to-reach places such as under bushes or along fences with no problems.

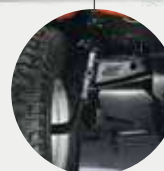

## GARDEN TRACTORS

### YOUR GARDEN WORK HORSE.

With high quality performance and easy operation, the Husqvarna tractors bring versatility to the garden workload. A built-in choice of cutting methods gives our garden tractors excellent versatility. Ideal for efficient lawn care and various tasks around your land.

Reinforced cutting deck for improved durability

Pivoting, heavy cast front axle ensures superior balance and driving comfort

# AGRICULTURE

## WE KEEP THE WORLD GROWING.

We like to go deep below the surface when we create new solutions and products. Husqvarna tillers are built on experience from the field, and thereby made to perform heavy duty tasks, with maximum maneuverability, in all conditions. Together we will keep the world growing.

SEE OUR FULL  
RANGE ON THE  
LAST PAGES

### DEEP-DIGGING OR SURFACE PREPARATION.

The helicoiled tines rotate anti-clockwise and break up the soil smoothly, even in tough conditions.

### BUILT TO LAST.

All components in our tillers are of the highest quality and thoroughly tested to ensure optimal durability.

### HIGH QUALITY MATERIALS.

Our sprayer is made of high quality materials such as brass pump with plated pistons, improved water filters and stainless steel in spray lance.

### EFFICIENT PALM PRUNING.

While the shaft is robust and the design is sturdy, our palm pruners still offer low weight, excellent balance and optimal efficiency.

## TILLERS

### EASY MANOEUVRABLE TILLERS.

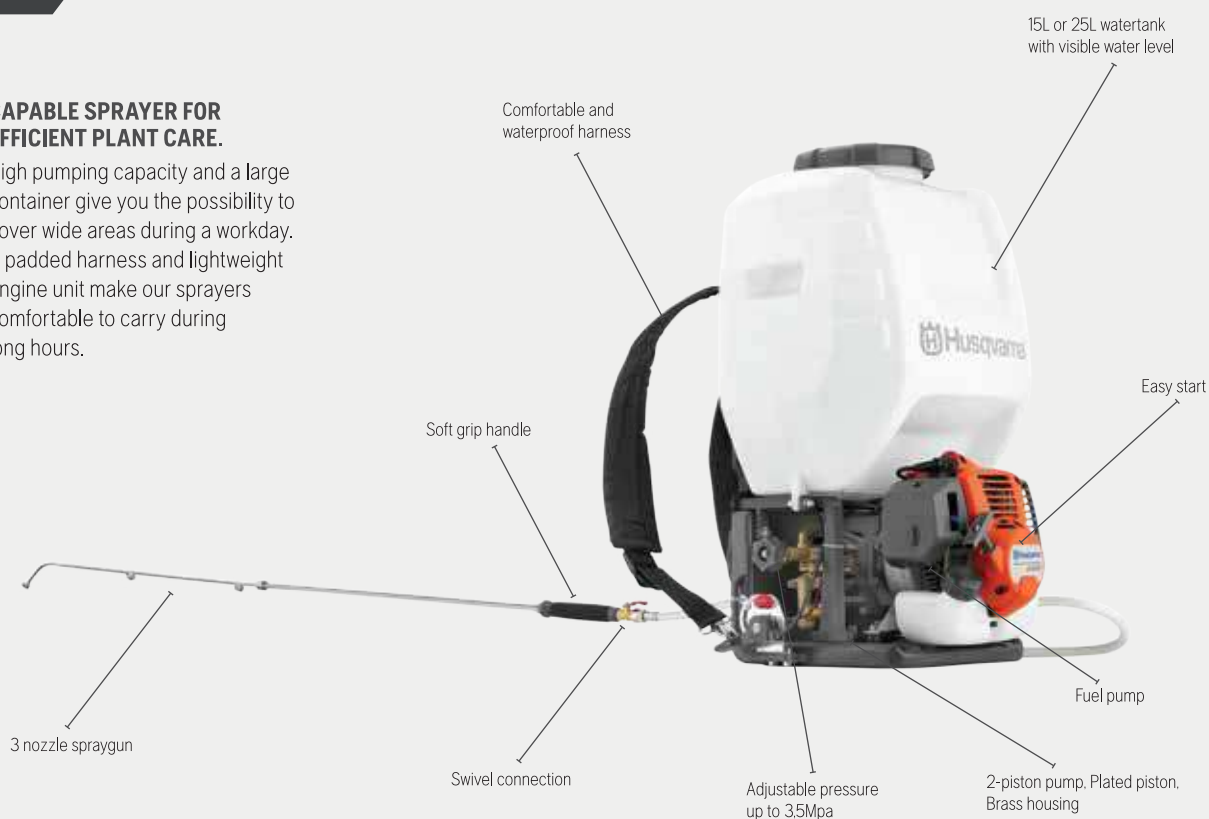

Good for soil preparing in smaller areas and gardens, or in gardens with many tight corners. For versatile garden tasks a front tine tiller will do the job.

## SPRAYER

### CAPABLE SPRAYER FOR EFFICIENT PLANT CARE.

High pumping capacity and a large container give you the possibility to cover wide areas during a workday. A padded harness and lightweight engine unit make our sprayers comfortable to carry during long hours.

# HUSQVARNA BATTERY SERIES – QUIET AND POWERFUL.

The Husqvarna Battery Series offers all the power, performance and intuitive design to give you the results you require. Our range of highly-efficient products makes sure you get significantly less noise and vibration, minimal maintenance – and no direct emissions at all. The battery system, with a wide range of options, powers all products and give you maximum flexibility.

SEE OUR FULL RANGE ON THE LAST PAGES

**MAXIMUM RUNTIME.**  
Husqvarna battery handheld products feature savE+, a battery economy mode which you can choose when you want to maximize your operational time.

**HIGH PERFORMANCE.**  
Our brushless electric motors deliver high, consistent torque from low revs, enough for the most demanding tasks.

**DOES NOT DISTURB.**  
Low noise – the silent motor provides a comfortable working environment and low disturbance for the surrounding areas.

**ONE BATTERY SYSTEM.**  
All battery-driven Husqvarna handheld products and lawnmowers can use batteries in the BLi battery range. The charging is extremely fast.

## CHAINSAWS

Husqvarna battery chainsaws are powerful and quiet products, available in versions for professional tree care use and arborists, as well as for carpentry and domestic woodcutting. The powerful brushless motors, high chain speed and convenient handling make them excellent alternatives to petrol chainsaws.

## BRUSHCUTTERS

Husqvarna battery brushcutters are powerful, lightweight and well-balanced for professional use. They feature brushless motors powerful enough for heavy use with grass blades and handles designed for best working position. You can even change trimmer line rotation to avoid grass cuttings landing on walkways.

## HEDGETRIMMERS

Husqvarna battery hedgetrimmers are quiet, lightweight products with performance levels equal to those of petrol hedgetrimmers. The powerful motors, long blades with high cutting speed and pivoting rear handles on the professional models ensure best working position and work result.

## POLE SAW

Husqvarna battery pole saws are powerful, lightweight and well-balanced products for professional use, with performance levels equal to petrol pole saws. The clearing saw, 536LiPX, is a true innovation on the market. A genuine forestry clearing saw with high productivity. Thanks to adjustable direction of the bar, it can also be used for tree care and fruit tree pruning

## BLOWERS

Husqvarna battery blowers are exceptionally quiet, powerful and well-balanced products for efficient clearing of leaves, debris and litter, even in noise sensitive and environmentally restricted areas.

## BATTERY AND CHARGER

The working time available with a fully charged battery depends on three variables: the capacity of the battery, which machine the battery is used with and if you're doing light or tough cutting/trimming. The chart shows an estimate of the operating time you can expect from your Husqvarna battery equipment in different work situations

	CHARGING CYCLES	QC330		QC500		QC80		QC80F

Best option

# RELIABLE ROBOTIC MOWING SINCE 1995

Husqvarna Automower® is a robust, reliable robotic mower for lawns up to 5000 m<sup>2</sup>. It navigates complex areas silently and automatically, gliding through narrow passages, tough terrain and handles slopes up to 45%. And you get a green, everyday perfectly mown lawn – with the minimum of interaction.

#### NO NOISE

Husqvarna Automower® does its job quickly, quietly and efficiently. The noise level is so low you can operate the mower during the night.

#### WORKS IN THE RAIN

Husqvarna Automower® gives great cutting results in any type of weather. It is designed to withstand the harsh working environment and its sensitive parts are safely protected from rain, as well as dirt and grass clippings.

#### HEALTHY GRASS

Husqvarna Automower® constantly cuts the grass as it grows. This is by far the gentlest way to cut grass. Whereas ordinary mowing usually takes off several centimetres of clippings which are then collected and removed, the clippings from Husqvarna Automower® are only a few millimetres long. They will fall to the soil, mulch and fertilise your lawn.

#### ADVANCED NAVIGATION

The robust boundary wire signalling system ensures Husqvarna Automower® always stays in the working area and covers the entire lawn, even in highly complex areas.

## BLOWERS

VAC KIT  
INCLUDED

**125BVX**  
28cc - 0.8kW - Air speed 76 m/s - 4.35kg  
Vac capable | Cruise control | In lined outlet  
Mulching function | Auto return stop switch

**525BX**  
25.4cc - 0.85kW - Air speed 86 m/s - 4.3kg  
Adjustable tube length | Cruise control  
Auto return stop switch | X-Torq® | LowVib®

**350BT**  
50.2cc - 1.6kW - Air speed 80.47 m/s - 10.2kg  
Cruise control | Ergonomic harness  
Adjustable handles | X-Torq® | LowVib®

**580BTS**  
75.6cc - 2.84kW - Air speed 92.2 m/s - 11.8kg  
Cruise control | Ergonomic harness | Air Injection  
Adjustable handles | X-Torq® | LowVib®

## COMBI MACHINES

**327LDx**  
24.5cc - 0.9kW - 5.1kg  
Detachable shaft | Comfort handle  
Auto return stop switch | Smart Start®

**Trimmer attachment**  
For detachable trimmers. Cutting equipment and guard are included. Shaft diameter 24mm.

**Blower attachment**  
Keep lawns, pathways and flowerbeds looking clean with blower. Shaft diameter 24mm.

**Pole saw attachment**  
Gives extra reach when needed. Cuts branches up to approximately 15cm in thickness.

## BRUSHCUTTERS

**131R**  
32.6cc - 0.9kW - 7kg  
Tool-less air filter cover | Metal clutch cover  
Anti vibration handle | Die-cast reinforced bevel gear  
Smart Start®

**131RB**  
32.66cc - 0.9kW - 10.2kg  
Tool-less air filter cover  
Metal clutch cover | Anti vibration handle  
Comfortable padded harness | Smart Start®

**532RBS**  
33.6cc - 1.1kW - 8.8kg  
Stand alone starter | Fuel pump  
Comfortable padded harness  
LowVib® | Smart Start®

**542RBS**  
41.5cc - 1.5kW - 9.0kg  
Stand alone starter | Fuel pump  
Comfortable padded harness  
LowVib® | Smart Start®

## SPRAYERS

**321S15**  
25cc - 0.7kW - 15L capacity - 9.2kg  
High quality materials | Nozzle kits  
Comfortable waterproof harness | Visible water level

**321S25**  
25cc - 0.7kW - 25L capacity - 10kg  
High quality materials | Nozzle kits  
Comfortable waterproof harness | Visible water level

## TILLERS

**TF230**  
196cc - 30cm depth - 75cm width  
Husqvarna gasoline engine | Support wheel  
Protective bumper | Plant guard

**TF544**  
418cc - 30cm depth - 110cm width  
Husqvarna diesel engine | Wheel kit  
Protective bumper | AUX PTO

## TRACTORS

COLLECTOR INCLUDED

**TS138**  
508cc - 8.6kW@2600 rpm - 17.5hp - 38" Cutting width  
Pedal-operated | CVT transmission  
Large collector | Briggs & Stratton engine

COLLECTOR INCLUDED

**TS342**  
721cc - 11.1kW@2600 rpm - 22hp - 42" Cutting width  
Pedal-operated | Hydrostatic transmission  
Briggs & Stratton engine

## RIDERS

**R213C**  
500cc - 6.7kW@3000 rpm - 17.5hp - 37" Cutting width  
Articulated steering | Hydrostatic transmission  
Briggs & Stratton engine

## Ride-on attachments

**TRAILER**  
- 97cm X 72cm X 28cm  
- Spacious and sturdy  
- Folding tailgate for easy loading and unloading  
- Tippable dump trailer

**SPREADER**  
- Handy spreader with easily adjustable flow,  
- Can be used for spreading fertilizer and seeds

**ROLLER**  
- High density polyethene push or tow roller  
- 18" diameter - 36" working width (41.5" total width)  
- Weighs up to 164kg when filled with water  
- Can also be filled with sand

Other available attachments:

- MOSS RAKE
- GRAVEL HARROW
- SCARIFIER

## ROBOTIC MOWERS

**305**  
Working area 500 m<sup>2</sup> - Li-ion battery - Singlesearch  
Reliability | No noise or emissions | Pin code lock  
Optimal cutting result | Tilt and lift sensor

**220AC**  
Working area 1800 m<sup>2</sup> - NiMH battery - Tripplesearch  
Reliability | No noise or emissions | Pin code lock  
Optimal cutting result | Tilt and lift sensor

## LAWN MOWERS

**54**  
16" Cutting width - 8.6kg  
Extra hardened reel blade and bedknife  
Sturdy wheels | Easy handling

**LC19**  
161cc - 2.7kW - 19" Cutting width - 32kg  
Briggs & Stratton 700 engine  
Collection / BioClip® 2 in 1 cutting system  
Large collector | Robust design | Steel cutting deck

**LC19AP**  
161cc - 2.7kW - 19" Cutting width - 34kg  
Briggs & Stratton 700 engine  
Collection / BioClip® 2 in 1 cutting system  
Front bumper and side skirts  
Large collector | Robust design | Alloy cutting deck

**GX560**  
163cc - 3kW - 20" Cutting width  
Working angle 45° | Hover model  
Easy to manoeuvre

## POWER CUTTERS

**K760**  
73.5cc - 3.7kW - 14" Blade - 9.6kg  
Light and powerful | Easy-start engine  
Exceptionally low vibrations  
Long service intervals | X-Torq®

**K770**  
74cc - 3.7kW - 14" Blade - 9.9kg  
Integrated wet cutting system | Easy-start engine  
Anti vibration | X-Torq®

**K970**  
94cc - 4.8kW - 16" Blade - 10.9kg  
Sturdy and reliable | Easy-start engine  
Optimal belt tensioning | X-Torq®

**K1270**  
118.8cc - 5.8kW - 16" Blade - 13.7kg  
Easy-start engine | Magnesium blade guard  
Superior power with low emissions  
Reduced wear | X-Torq®

**VARI-CUT S45**  
- High-quality finishing of cut  
- Ideal for concrete and hard materials  
- Excellent balance between speed and life  
- High cutting capacity

**TACTI-CUT S50+**  
- More comfortable cutting  
- High speed in universal construction materials  
- High speed in hard materials  
- Easy-fit centre hole

## PRESSURE WASHERS

**PW125**  
125 bar - 320-460 l/h - 1500W - 7m hose length  
Flexible high-pressure hose | Metal pump  
Hose reel | Double swivels | Quick connect

**PW235R**  
135 bar - 350-520 l/h - 1800W - 8m hose length  
Flexible high-pressure hose | Metal pump  
Hose reel | Remote control pressure

**PW360**  
160 bar - 420-500 l/h - 2300W - 10m hose length  
Steel reinforced high-pressure hose | Metal pump  
Hose reel | Low force grip

## GENERATORS

**G1300P**  
98.5cc - 0.9kW Rated/1.2kW Max - 6L fuel tank  
Visible fuel level | External fuel cap for easy refueling  
Easy-start engine | Ergonomic design

**G2500P**  
196cc - 2.2kW Rated/2.5kW Max - 14L fuel tank  
Visible fuel level | External fuel cap for easy refueling  
Easy-start engine | Ergonomic design

**G3200P**  
212cc - 2.8kW Rated/3.2kW Max - 14L fuel tank  
Visible fuel level | External fuel cap for easy refueling  
Easy-start engine | Ergonomic design

**G5500P**  
389cc - 5.5kW Rated/6.0kW Max - 27L fuel tank  
Visible fuel level | External fuel cap for easy refueling  
Easy-start engine | Ergonomic design | Wheeled

## WATER PUMPS

**W50P**  
163cc - Inlet/outlet size 50mm  
Max lift 30m - Max discharge 28 m<sup>3</sup>/h  
Easy-start engine | High spec pump house  
Protection frame

**W80P**  
196cc - Inlet/outlet size 80mm  
Max lift 28m - Max discharge 50 m<sup>3</sup>/h  
Easy-start engine | High spec pump house  
Protection frame

## ACCESSORIES

### HELMET

Helmet completely equipped for full-time or occasional forestry work. Effective hearing protection with optimal ergonomics. Large metal mesh visor that provides good protection and good visibility. All parts are tested to guarantee product fulfills safety requirements.

### HEARING PROTECTION

These hearing protectors are developed for optimal ergonomics and prolonged use. The design allows 20% adjustment of pressure against head and is equipped with unique polyurethane insert which provides maximum space for the ear. Best choice in respect of comfort and individual preferences. Can be equipped with a wide range of visors.

### PROTECTIVE GLASSES

Protective glasses with non-scratch and grey tinted lenses with UV-protection for better vision in sunny conditions.

### JACKET, CLASSIC

Clean and modern design with quality in the details, such as big reflective logo prints, buttons at end of the arms for a tight fit and upper part in high viz orange for visibility. Chest pocket with zipper and two side pockets.

### CHAPS

Chaps with chainsaw protection, perfect for the occasional chainsaw user. One size chaps that can be used above your regular working trousers. Ideal when working in hot weather conditions. Full length zip fastenings at the back and waist belt with adjustable height and waist width.

### PROTECTIVE BOOTS, FUNCTIONAL 24

Handmade boot with approved saw protection. Extra reinforced upper part with toe-cap and reinforcement around the sole. A new heel cap makes it easier to put on and take off the boot. Cotton lining. Sole can be fitted with studs.

### GLOVES, CLASSIC

A one size durable glove made with a goat leather palm with spandex fabric on the back. Goat leather has a good protection against moisture since it contains natural fat and therefore suitable for demanding jobs. Rubberized cuff with cotton binding for a perfect fit around the wrist.

### GLOVES, FUNCTIONAL

A comfortable saw protection glove made with a goat leather double palm with foam laminated spandex on the back and with nylon neoprene knuckles. Goat leather has a good protection against moisture since it contains natural fat and is therefore suitable for demanding jobs. Knitted wrist makes it easy to put on and gives comfort.

### TOOL BELT KIT

Tool belt complete in profiled box with tool belt, two holsters, rear tool carrier, lifting hook, lifting tong and measuring tape.

## ACCESSORIES

### TWO-STROKE OIL HP (1 LITRE / 4 LITRES)

Developed with carefully selected components to work well with low quality petrol. The additives are the highest quality and are especially chosen to lessen deposits on the crankcase which can arise from using low-quality fuel.

### COMBI CAN

Developed in-house, our combi can holds 6 litres of petrol and 2.5 litres of oil. The fuel container is fitted with an efficient overfill protection. When the tank is full, the flow is shut off automatically and you can lift up the can without spilling.

### POWER BOX

Tough handy carrying case designed to carry a chainsaw, lubricants and other accessories.

### HATCHET

A small axe for fire wood and garden work. Comes with an edge cover in leather. The head is attached to the handle using both a wooden and a steel wedge to secure fastening.

### LIFTING HOOK / TONG

Lifting hook with a comfortable handle and a scale for measuring tip diameter. Tongs are made of high quality steel with an ergonomic handle and has grinded edges gives a powerful grip when lifting logs. Special hardened steel with a surface treatment makes the product robust and less sensitive for rust.

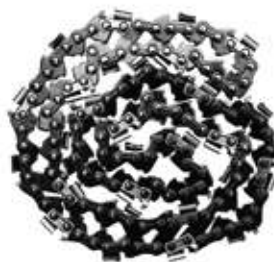

### FELLING WEDGES

Felling wedge made of tough polystyren. Wedges help the tree fall in the direction of the notch cut by actually lifting the tree in that direction. Used to prevent the tree from pinching the saw, or leaning back on the saw, while making a back cut. Often allowing a safer, cleaner felling experience.

### GUIDE BAR

Original Husqvarna bars are made to fit perfectly with your Husqvarna chainsaw. They have withstood the test of time and will last longer and perform better with your Husqvarna chainsaw. Also, there is always a replacement chainsaw bar to match your need in our assortment.

### SAW CHAIN

Husqvarna's chains are designed to optimize your chainsaw and achieve high performance no matter what job you need to get it done. There is always a chain to match your need in our assortment.

### FILE KITS

Complete filing kits to simplify the work of keeping your chain in trim. With a correct sharpened chain, your work will be easier and safer. The file kit contains a file handle, combination gauge or a file gauge and depth gauge, two round files and one flat file.

**HUSQVARNA DEALERS WILL HELP YOU GET THE MOST OUT OF YOUR MACHINES.**

Let your Husqvarna dealer advise you on products and service. At your dealer, you will also find genuine Husqvarna spare parts, lubricants and accessories to ensure you get the best possible performance.

**MINIMISE YOUR DOWNTIME WITH PREVENTIVE MAINTENANCE AND REPAIRS.**

By doing regular maintenance on your machines, and servicing them at the recommended times, you make sure that they perform at their best. You also minimise the risk of unexpected downtime. And, just as importantly, the machines will last longer.

# PROFESSIONAL SUPPORT FOR PROFESSIONAL DEMANDS.

Your Husqvarna dealer can advise you on machinery and services to suit your needs. They can also supply you with genuine Husqvarna spare parts, lubricants and accessories as well as adequate service and repair to keep your Husqvarna equipment ready for your next job. Our dedicated dealers provide professional services for your machines, to safeguard optimal performance and reliability. The Husqvarna dealer network consists of 25,000 locations worldwide, so we are never far away.

## **ADD PERFORMANCE WITH HUSQVARNA ACCESSORIES.**

Why let poor equipment get in your way? Husqvarna accessories allow you to keep working and deliver great results. By choosing Husqvarna accessories and lubricants from our extensive product range you are guaranteed the same high quality throughout the lifespan of the product.

## **KEEP YOUR MACHINES IN ORIGINAL SHAPE WITH GENUINE HUSQVARNA SPARE PARTS.**

Every single part in a Husqvarna machine is rigorously tested to ensure it interacts optimally with all the other parts. This interaction produces the reliability and characteristics you expect from a Husqvarna.
