INNOVATION. IT'S WHAT DRIVES US

Other companies build things. At WORX, we create.

After all, it's all about The Idea. To do what's never been done. Or taking what's always been done and reimagining it being done better. Faster. Easier. More efficiently.

At WORX, we don't seek out innovation; we let it drive us. Let's see where it takes us.

IT STARTS AT THE TOP

WORX employees easily find themselves motivated to innovate — it's a message our President and CEO Tom Duncan of the North American division has stood behind his entire career.

Tom has brought over a decade's worth of international business experience and leadership to help create a tight knit team that's efficient, collaborative and known for innovation and excellence.

Tom's mantra: "Our company is winning not only because of our knowledge but because of our passion. It's easy to work hard when you love what you're doing. And I absolutely love what I'm doing."

MORE THAN WORDS. WORDS WE LIVE BY.

With a passion for innovation, power and performance, we create tools that let our customers work quickly and easily, then get on with their lives.

REIMAGINE. REINVENT. RESULTS. REPEAT.

While our objective might be simple — to create products that help people take care of their homes, yards and gardens — it certainly cannot be considered easy.

We take the accepted norm and reimagine it. Then we head to the drawing board to reinvent it. And then we move on to the next challenge and do it all over again. That's why we're recognized as a leader that's advancing the industry. Just like we did with these products.

REDUCING OUR FOOTPRINT WHILE HELPING YOU REDUCE YOURS.

We believe it's our duty to not only continue introducing WORX products that enable our customers to be environmentally responsible, but to also ensure that we as a company are operating that way as well.

That's why we're constantly improving our manufacturing processes to further reduce waste and manage our emissions. And you'll keep seeing WORX products that protect our atmosphere, like battery-run or electric tools that provide the power and capabilities of gas-powered options.

We take pride in the recognition we've received, like the **World Wildlife Fund's Platinum Award** for Low Carbon Manufacturing and the LEEDS-NC Platinum distinction for our green building. It's proof that we're not only talking the talk, but walking the walk.

WORX has been successfully tested by more stringent standards in overseas markets.

14 OFFICES ACROSS THE WORLD

LET US HELP TURN "TO DO" INTO "DONE."

The folks at WORX are not only experts in design and engineering, they know a thing or two about how to use our products to improve your home and make your life easier. Check out our blog WORX Toolshed to stay abreast of real-life DIY, lawn and garden advice from our team of professionals.

WORX AWARDS HISTORY

Red Dot Design Museum Essen / Germany

Reddot

The Red Dot Design Award originated in Germany and has a history of more than 60 years. It is the largest and most influential design competition in the world. The Red Dot Award Winner is a symbol of high-quality design and a well-known certification mark for excellent design quality. It is reported that this year's Red Dot Design Award has attracted more than 5,500 outstanding works from 54 countries around the world. All works accept the strictness of more than 40 judges from the four aspects of function, aesthetics, use and responsibility. Critical selection.

reddot

Known as the "Oscar" in the design industry, the German Red Dot Design Award, WORX brand ushered in two annual Red Dot Awards in 2017 and 2019.

In 2017, six products of WORX won six Red Dot Award Winner 2017 in one fell swoop, which is quite rare in the history of red dot. WORX once again stood in the industry with its strength Top of design! The six original design products of the award-winning WORX are related to power tools such as gun drills, cordless, carpentry and garden. To the highest point, to the future! 1 brand, 6 products, all awards, WORX has created a new miracle!

In 2019, WORX products won the red dot product design award (Red Dot Award Winner 2019). This design product is ingeniously blessed, innovative and empowered, and glorious red dot!

WORX the seven products will be exhibited in the global "Design Temple" - German Red Dot Design Museum.

WORX has always focused on innovation in product development and design, making the product both practical and comfortable to meet the needs of different consumers. The stylish color matching and beautiful styling design subvert the rigid and bulky image of traditional power tools, winning the trust of customers and the favor of consumers, and leading the new trend of the power tool industry!

>> "PRODUCT OF THE YEAR 2011" AWARDS

London, June 7, 2011.

With 4 out of 6 awards in two categories, Worx is the clear winner of DIY Week's 2011 competition. The leading European trade magazine has named "Product of the Year" the Sonicrafter oscillating tool and the G-Force angle grinder in the power tool category, and the Trivac blower-vac and the Eco cordless mower for garden tools.

>> POPULAR SCIENCE "Best of Whats New" AWARD

American, November, 2013.

Popular Science, the number one in global sales and one of the most authoritative science and technology magazines in the world, "Popular Science" announced the "Best of Whats New" in 2013, which is known as the "Global Technology Oscar". Worx SD was selected to win the Grand Awards in the household products category. The award-winning Worx SD (new 4-volt automatically switches cordless screwdriver) has achieved a new leap in technological innovation based on user needs and experience. It can automatically switch the screwdriver, which is convenient, fast and easy to carry.

>> "2014 EFTM BEST" AWARD WORX SD DRIVER BEST HANDYMAN

Australians, June, 2014.

The Worx SD Driver is a mini cordless drill with an easy to use set of interchangeable bits based on user needs and experience and has achieved a new leap in technological innovation. It can automatically switch the screwdriver, which is convenient and fast to use. The weight and size of the glue gun make it small and exquisite, easy to carry; in terms of appearance, the product is positioned in the gift market, the packaging design is shaped like IPAD, the overall appearance is stylish and simple, high-end avant-garde, deeply loved by consumers.

>> "IDSA" AWARDS WORX SWITCHDRIVER GOLD IDEA

Virginia, August, 2017.

WORX Switchdriver Wins Gold at International Design Excellence Awards. The WORX 20V Switchdriver™ 2-in-1 Drill and Driver has won a Gold award in the International Design Excellence Awards (IDEA®) 2017, hosted by the Industrial Designers Society of America (IDSA). Switchdriver won in the Home & Bath category

>> WORX WON THE EUROPEAN INNOVATION TECHNOLOGY PLUS X AWARD

Germany, 2019.

The "Plus X Award" is one of the most influential competitions in the world to enhance the brand. The entry requirements are extremely strict. The entire series of WORX Landroid intelligent lawn mowers stood out among many top brands, winning five sub-category awards all the way, and finally won the "2019 Best Product Award", becoming the only product that won all five selections this year.

- 1. Why does the newly dismantled tool run out of power after a while?**
 For Worx, all li-ion batteries are shipped with only 10% of the power for safe transportation. After receiving the new tool, please charge the battery immediately after trial. Generally, the first charge is between 3-5 hours (the green light flashes when charging, and the green light always indicates charging is completed)
- 2. Does the battery have a memory effect?**
 Worx uses imported li-ion batteries, not traditional batteries, so there is no memory effect
- 3. Does the temperature affect the battery?**
 Worx imported batteries have four intelligent battery management systems, among which temperature protection. When the temperature exceeds 45 ° or below 30 °, the battery will stop working to protect the battery life. It is not recommended to store the battery in places with too high or low temperature

POWERFUL AND EFFICIENT

Brushless motor, high speed and durable

Continuous power source, no pressure on drilling and twisting, longer life expectancy.

Question:

Why choose a brushless motor?

Brushed motor disadvantages:

Because of the presence of carbon brushes, wear and sparks are unavoidable during operation, and the energy loss is large and the efficiency is relatively low.

Brushless motor advantage:

The brushless motor adopts a typical mechatronics design, which embodies the physical application of carbon brushes, bringing higher output power and working efficiency.

**BRUSHLESS™
MOTOR**

**BRUSHLESS™
MOTOR**

Worx has made brushless motor technology available to demanding users. The advantage? Higher power, longer runtime on a single charge, and much longer lifetime of the motor.

HIGH EFFICIENCY

DURABLE

LOW ENERGY CONSUMPTION

MAINTENANCE FREE

LOW INTERFERENCE

LESS FRICTION

**UP TO 10 X
LONGER MOTOR LIFE**

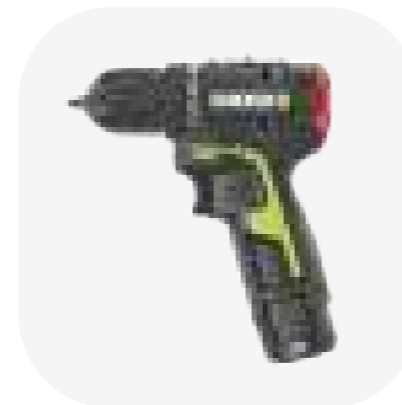

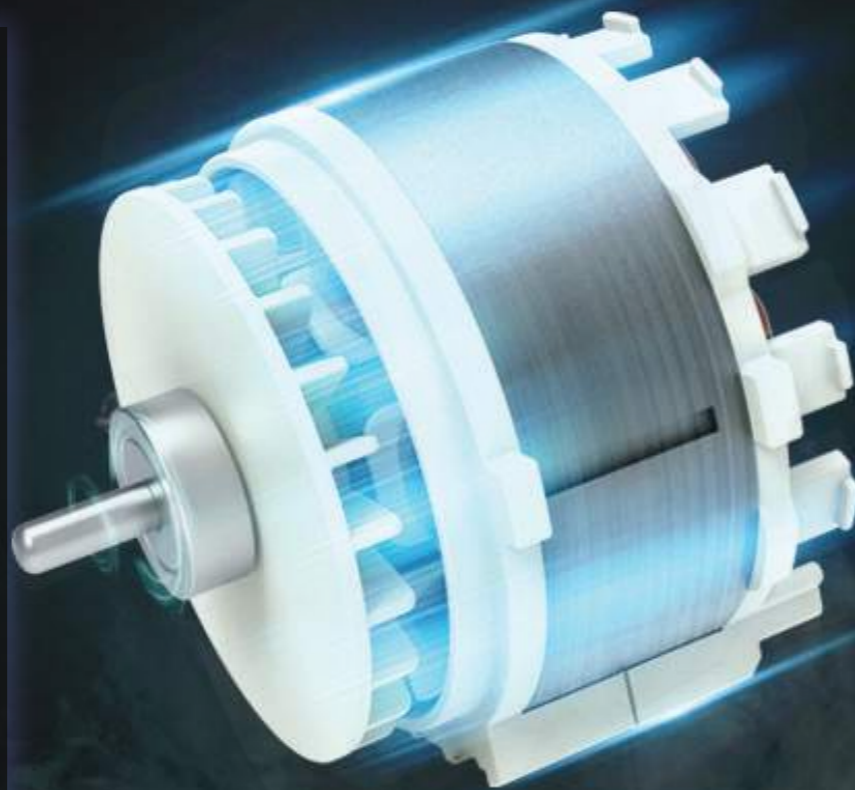

Electronic commutation makes brushless motors maintenance-free, with no parts that can get worn out with even the most intensive use.

**UP TO 50%
MORE RUNTIME**

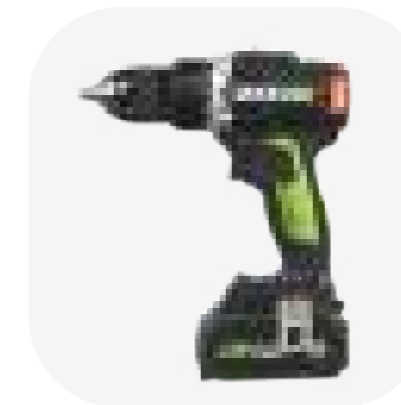

Your battery is not intended to power up a heater. Because brushless motors do not generate heat, your battery's charge will last longer. Much longer.

**UP TO 25%
MORE POWER**

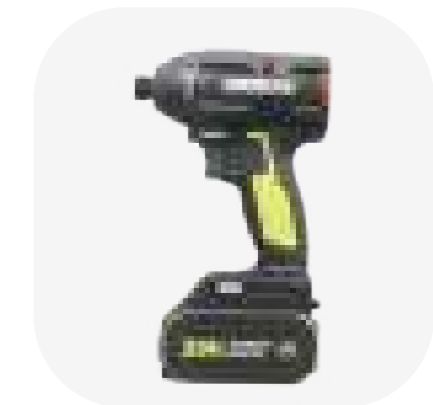

Freed from the burden of carbon brushes, brushless motors finally deliver all the power you need for your most challenging tasks.

1010W 2-Function Rotary Hammer WU326P

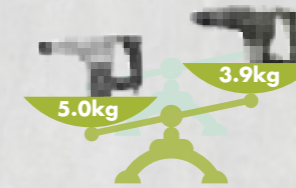

- 1 **Function Switch Knob**
Flexible switching of hammer drill, chisel functions
- 2 **Patented Safety Protection Clutch**
Clutch with high wear-resistant alloy steel material, less malfunction during life cycle
- 3 **Large-pore Air Duct at the Right Side**
Fast heat dissipation, prevent dust from entering eyes
- 4 **Anti-vibration Handle**
Spring vibration absorption design reduces the damage to users
- 5 **Anti-slip Handle**
Uniform stripe design and more powerful gripping
- 6 **External Quick-change Carbon Brush**
Easy to replace carbon brush
(Same size as common carbon brushes in the market)

Safety Clutch to Protect Users from Injures

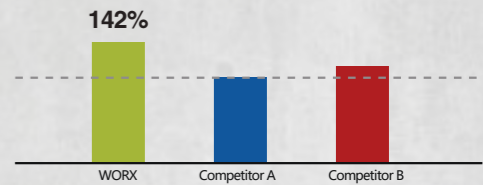

If the drill bit get stuck or touching hard object (such as steel), safety clutch will be automatic activated to protect operators' personal safety (Patent No.: ZL201521019670.4)

Easier to Operate and Lighter Weight

More than one kilogram lighter than other hammers with same specifications
Less fatigue after continuous work, and more convenient to operate

Extremely Hammer Drilling Efficiency

Higher drilling efficiency than other hammers with same specifications
Same time but more holes, faster in the same job

PROFESSIONAL TOOLS

is a high-end power tool brand that cater to heavy industrial and construction users.

PRESSURE CLEANING REINVENTED

The original cordless pressure cleaner that you can take anywhere

Unlike conventional pressure washers that require a bulky body unit, a mains connection and a garden hose attached to a tap, the Hydroshot runs on batteries and draws water from any source

Bodyless

No bulky heavy machines to move around: the pump is in the lance

Cordless

Forget tangled power cords, the Hydroshot runs on batteries anywhere

Reel-less

Say no to those long hoses that are never long enough

Tapless

Pick water from any source: bucket, tank, bottle, pond...

HYDROSHOT™

reddot award 2017 winner

RETHINK WHAT YOU CAN CLEAN

The Hydroshot redefines the way you spray water to remove dirt, dusts and grime anytime, anywhere.

IT DRAWS WATER FROM ANY SOURCE

The new Hydroshot does not need to be attached to a tap. Just drop its hose into whichever container of water and you are ready to clean. It draws water from buckets, tanks, bottles, water ponds. And counting.

GARDEN TOOLS

We've some garden tools easy to use, you can tackle more tasks than ever before and take your yard to the next level.

Worx Landroid WR106SI Robot Lawn Mower

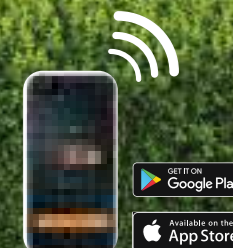

The most agile and efficient mower

Our AIA technology is designed to handle even the most complex garden. Landroid easily mows between your flowerbeds, the corridor that sets your swimming pool apart from the patio, and the narrow passage that connects your front yard to your back yard.

Landroid doesn't need a lifeline

Landroid always finds its way through narrow passages. Even better, it mows the passages rather than just passing through them.
