QINGYANG TQ80-BNG PIPE THREADING MACHINE

1. Function

QINGYANG TQ80-BNG pipe threading machine, designed with pipe threading, cutting and reaming functions, is mainly used to make external taper pipe threads with 55° teeth angle in conformity with GB/T7306 standard. QINGYANG pipe threading machines will help you to improve labour productivity and reduce construction cost. It is an ideal tool for pipe threading work in construction and installation sectors.

2. Features

- Powerful motor up to 1500W;
- High efficiency;
- Two operation speeds;
- Reliable and long-lasting.

3. Technical Specifications

Model	TQ80-BNG
Threading capacity	1/2" ~ 3"
Speed (rpm)	23, 35
Motor	DOT9012GA, 220V, 50Hz, 1500W, 2800rpm, Motor with capacitor (450V 60μF)
Die head	Manual, DH50-CN, DH80-AN
Die type	27103 (BSPT, exchangeable with REX dies); NPT, metric, BSW dies are optional.

Die size	1/2-3/4", 1-2", 2 ^{1/2} - 3"
	27×10.3mm
Net weight	82kg
Machine size	700×470×530mm
Packing size	806×518×635mm

4. List of Attached Spare Parts and Accessories

DESCRIPTION	SPECIFICATIONS	QUANTITY
Die head	DH50-CN (1/2-2")	1
	DH80-AN (2-1/2"~3")	1
Cutter Set		1
Stand leg		1 SET
Screw driver		2
Oil filler		1
Special cutting oil		2L
Brush		1
Hexagonal key	4,5,6,8	One for each
