**OUR MISSION**

Dedicated to serve the industry through technology enabler that optimizes and enhances productivity, effectively reducing costs, which are reciprocal to society.

**ABOUT US**

Established in 2003 by a team of former Lumonics employee, equipped with a strong laser foundation. Veterans in sales and service support for the Front and Backend Semiconductor market, where service excellence is a prerequisite for business viability.

Leveraging these cores values applying it to service diverse industries, creating new value add.

**OUR CORE VALUES**

Create and deliver sustainable, environmental and valued solutions with integrity, accountability, courage and compassion.

**OUR BUSINESS**

Hard marking

Trimming

General Marking

M310 Refurbishment

Wafermarker Refurbishment

Debris free soft marking

# PRINCIPALS

## Thinklaser USA

Thinklaserusa manufacture custom laser solutino, refurbishment of GSI Lumonics and lumonics wafermarking system.

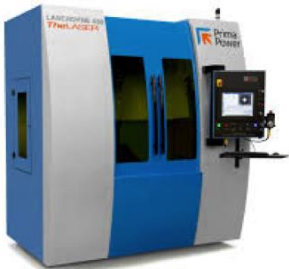

## 3DT

3DT manufactures a full line of innovative corona and plasma surface treating equipment designed to meet stringent surface requirement. The equipment can be incorporated into existing or new production lines, as stand-alone stations, or integrated into semi or fully automated production lines.

## 3M

3M™ Novec™ Engineered Fluids are versatile, non-flammable fluids used in various critical industrial applications. With excellent dielectric properties and a wide range of boiling points, these fluids have excellent materials compatibility and thermal stability.

## Prima Power Laserdyne

Prima Power is a leading specialist in precision laser processing multi axis machines for sheet metal welding, drilling and cutting especially in the aircraft industry.

## LT Bimetallic Engineering

LT Bimetallic manufactures a remarkable range of impeccable quality products from screw shafts, barrels and accessories for plastic extrusion and injection molding, precision engineering works to heat treatment and hard chroming.

## Philippines

## FUCHS

Fuchs is a German lubricant specialist, providing a full range of metal finishing, hydraulic, gear, engine, compressor and wire rope lubricants.
