

CUSTOMIZE TO SANITIZE ALMOST ANY SURFACE

GVC-18VAC – Rigorous and effective

The GVC-18VAC provides the extreme flexibility you need to customize the steam and vacuuming power to the ideal setting for your steam cleaning job. You can also regulate hot water flow continuously, so you have constant moisture level control. You have the ability to clean and sanitize almost any surface including work tables, seats, carts, beds, carpets, upholstery, desks, door handles and more. Ideal for high traffic areas, the GVC-18VAC provides quick and effective cleaning. The GVC-18VAC is also environmentally friendly. As a result of the steam pressure, the GVC-18VAC minimizes water consumption and cleans with hi-temp steam- no harsh chemicals needed! The built-in vacuum system utilizes a unique UV-C germicidal light to kill collected bacteria before exhausting purified clean air.

FEATURES

- 3 adjustable settings each for both steam and suction power
- Control valve for hot water moisture level
- Stainless steel construction
- Ability to clean multiple surface types
