UEN No. 200311967G

MATERIAL SAFETY DATA SHEET

PRODUCT: PURE™ Range Reed Diffuser Refills – All Scents

1. Identification of the substance/preparation.

Compound Name : Reed Diffuser Refills

2. Hazards identification

Harmful by ingestion. Keep out of reach of children.

Physio-chemical hazards: Flammable

Environmental Hazards: This product has not been tested.

3. Composition/information on ingredients

This material is a fragrance compound, the composition of which is confidential business information.

4. First-aid measures

Ingestion : Product used as intended is not expected to cause gastrointestinal irritation. Accidental ingestion of product may necessitate medical attention.

Inhalation : Not expected to be irritating to the respiratory system during normal conditions of use.

Skin Contact : Wash off with water, using soap if available. Not expected to be irritating or sensitizing when used as intended.

Eye Contact : Immediately rinse the eyes with plenty of water. Remove any contact lenses. If any sign of irritation is apparent, obtain medical advice immediately.

5. Fire-Fighting Measures

Extinguishing Media: Use dry chemical, carbon dioxide, water spray or alcohol-resistant foam. For large fires, use water spray, fog, or alcohol-resistant foam. Use water spray to cool fire-exposed containers. Water may be ineffective. Do NOT use straight streams of water.

Special Protective Equipment: Exposed fire fighters should wear approved self-contained breathing apparatus with full face mask and full protective equipment.

UEN No. 200311967G

6. Accidental release measures

General Information: Use proper personal protective equipment as indicated in Section 8.

Spills/Leaks: Absorb spills onto paper towels and flush the contaminated area with plenty of water. Remove all sources of ignition. Provide ventilation.

7. Handling and storage

Handling : Wash thoroughly after handling. Use only in a well-ventilated area. Ground and bond containers when transferring material. Use spark-proof tools and explosion proof equipment. Avoid contact with eyes, skin and clothing. Empty containers retain product residue, (liquid and/or vapor), and can be dangerous. Keep container tightly closed. Avoid contact with heat, sparks and flame. Avoid ingestion and inhalation. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose empty containers to heat, sparks or open flames.

Storage : Keep away from heat, spark and flame. Keep away from sources of ignition. Store in a tightly closed container. Keep from contact with oxidizing materials. Store in a cool, dry and well-ventilated area away from incompatible substances. Flammables - area. Do not store near perchlorates, peroxides, chromic acid or nitric acid.

8. Exposure controls and personal protection

Exposure Guidelines : Exposure guidelines are not relevant when product is used as intended.

Respiratory Protection : No special protective equipment required.

Hand Protection : No special protective equipment required.

Eye Protection : No special protective equipment required.

Skin Protection : No special protective equipment required.

UEN No. 200311967G

9. Physical and chemical properties

Appearance	: Clear – Yellow Liquid.
Odour	: Characteristic
Viscosity	: Not determined.
Flash point	: Not available.
Explosive properties	: None expected.
Oxidising properties	: None expected.
Specific gravity	: 0.7904 – 0.8081 @ 20°C
Solubility water	: Miscible
Refractive index	: 1.3611 @ 20°C

10. Stability and reactivity

Conditions to Avoid	: Avoid extreme heat, flames and ignition sources. Store away from oxidizers.
Stability	: Stable under normal temperatures and pressures.

11. Toxicological information

Inhalation	: No known effect based on information supplied.
Skin contact	: No known effect based on information supplied.
Ingestion	: No known effect based on information supplied.
Eye contact	: No known effect based on information supplied.

(Please refer to Section 4 for further information)

12. Ecological information

The product ingredients are expected to be safe for the environment at concentrations predicted under normal use and accidental spill scenarios. Packaging components are compatible with the conventional solid waste management practices.

UEN No. 200311967G

13. Disposal considerations

Product : Do not discharge product unto natural waters without pre-treatment or adequate dilution. Dispose of in compliance with local regulations.

Contaminated packaging : Empty remaining contents.
Dispose of in accordance with local regulations.

14. Transport information

UN Number : 1266

Shipping Name : Perfumery product

Class : 3

Packaging Group : II

15. Regulatory information

Hazard - None

16. Other information

Reed diffuser refills contained within the products covered by this MSDS comply with appropriate IFRA guidelines.

The information provided in this MSDS is correct to the best of our knowledge, information and belief at the date of this publication and is, in our opinion consistent with the state of general scientific and technical knowledge at that date, but we cannot accept liability for loss, injury or damage which may result from its use.

In compiling the MSDS we have taken into account all proper application of the material of which we are aware and any user of the material should consult us before applying it to any novel or unusual use. We must point out that it is the responsibility of any intermediate supplier to ensure that the information contained in this MSDS is passed to the ultimate user.
